Disclaimer: LifeChoices Family Medical, a DBA of LifeChoices Women's Care, Inc. does not examine, determine, warrant or endorse the information on any of the entries in this directory. Use of this directory is voluntary and will not result in any liability against our organization. In no event shall the organization be liable for damages to any user of the directory for the voluntary selection of any medical health professional, for the services provided by any companies and individuals listed herein, or for any other damages which may occur.

Furthermore, it is important to understand the difference between a directory and a referral service. A directory is simply a list of professionals or businesses, and no recommendations, guarantees or endorsements are made regarding the quality of service you might expect from any of the professionals or businesses listed.

A referral service, on the other hand, is a screening service, and a recommendation is being made, with at least some endorsement of the professionals or businesses listed in the service. Usually, a referral service will require a professional or a business to meet some quality criteria before they are accepted into the referral service and included in the database. This might include certain professional qualifications, a specific number of years of experience, passing a special test or training program not required by everyone in the profession or business, an absence of consumer complaints about the professional or business, etc.

We do not verify the license or the qualifications of any professional or business listed. Understand also that inclusion or omission of particular professionals, businesses, organizations, or services does not imply a recommendation, or lack of, by LifeChoices Family Medical.
